THE BLAIRMORE PHARMACY

GORDON STEEVES, Prop.

BLAIRMORE, — ALBERTA

Through the efforts of Ontario's Dr. J. E. State, liberal member in new minister of health and labor, the legislature for the riding of Hon. Dr. Forbes Godfrey, diabetes Clearwater, died on Thursday last in throughout the province who require Vancouver, where he had been for the and are unable to pay for insulin, Dr. good of his health. Dr. State had F. G. Banting's new discovery, are to be ill since the middle of the last receive it free.

BREWERY HAS BEEN SOLD

As we go to press we learn that the brewery building has been sold to the Lethbridge Refinery for a consideration of \$8000 and that the cheque for that amount is being deposited in the bank today. Work of removing the machinery and wrecking the building will be undertaken at once.

A referendum on Ontario's liquor law is forecasted.

NOTICE!

To Whom it May Concern:

I, the undersigned, hereby give notice that I will not be held responsible for any debts contracted by my wife, Barbara Lombardi, from this date, as she has without good reason left my bed and board.

Dated at Blairstown, Alberta, this 8th day of August, 1923.

(Signed) JOE LOMBARDI. Aug. 9-16-23.

MEETING OF TOWN COUNCIL

The regular fortnightly meeting of the town council of Blairstown was held on Monday night, present Mayor McLeod, Councillors J. Angus McDonald, Evan Morgan, J. A. McDonald, W. Patterson and Secretary Wright.

The minutes of previous meeting were read and approved and the following were among the accounts voted by committees for payment: Redemption Debenture Coupons, By-Law No. 16, \$1807.55; H. Alfe \$52.00, L. Maitland \$56.00, B. Serandi \$72.00; Isaac Rae \$8.00, Sam Ernis \$104.50, W. Willoughby \$163.00, West Canadian Collieries \$208.50, Petty Cash accounts \$17.40, T. Stells \$5.00, E. J. Pozzi \$1800.00, A. Morency \$18.40; Councillor J. Angus McDonald objected to paying anything to Pozzi until Town had received \$1500 offered by Department of Public Works. In this connection, we may state that Contractor Pozzi has a contract with the town and not with the Department, and that Councillor McDonald had not the support of the council in his action against Pozzi. The \$1300 account of Contractor Pozzi is only part of the contract price of the new Victoria Street bridge.

A communication was received from the department of agriculture, stating that complaints had been received by that department of the prevalence of stink-weed in and around this municipality and that steps were not being taken to curtail the spread of such weeds. The council felt that there was considerable less to worry about in that line in the Crows' Nest Pass than in any part of the Province of Alberta, and in fact, some felt like suggesting that in order to curtail the spread of noxious weeds the department of agriculture would do well to pay some attention to prairie road allowances, which in a way are the property of that department.

H. J. LaFramboise asked price on a certain lot in town, on which he proposed building. Council would advise.

Copy of letter sent to the department of attorney-general in connection with the department's claim against the town and the town's counter claim against the department, was read by the secretary. The council were in accord with all sentiments expressed in the secretary's letter.

Mr. Caccioni again appeared in behalf of Mr. Lodo. Mr. Lodo recently made some alterations to residential property on Madawask Street. He submitted plans to the council some time ago, but the council has since discovered that the work done has not been as specified in plans and specifications. As per custom, the town undertook to extend water service connection from the main to Lodo's lot line. The bill for same amounted to about forty dollars and Lodo was advised that upon payment of said account water would be turned on and the amount of the account would be used up in service. Lodo has not paid the amount and he was advised on this occasion that the council would refuse the water service till account had been paid in full.

Peter Patterson, who owns property near the Old Man River near the foot of Eighth Avenue, complained that considerable of the property had been swept away by the recent floods. He asked that the town, in consideration of his loss, grant him another lot, or lots, on which he could move buildings. Council promised to look into the matter at once and advise Mr. Patterson.

Secretary was instructed to ascertain a figure from Contractor Pozzi on the cost of sidewalk near Victoria Bridge.

Considerable discussion ensued over the continuation of light service to the town of Frank. Council were informed that unless some improvements were made in the service line, the service would be condemned by an inspector. It was suggested that service meter be removed from the Sanitarium to the head of Twelfth Avenue.

use, thus relieving the town of possible loss through leakage. Matter was laid over for later consideration.

The auditor's report for the period ending May 31st was received and upon motion approved.

Councillor J. Angus McDonald again asked about the resolution standing on the books, granting the mayor and council's free water and light while holding office, which he felt was not legal. Councillor J. A. McDonald stated that he had voted for the motion. The mayor advised that such action of the council was in order and that he knew of other towns in the province where councilors had voted themselves remuneration. No action to rescind the motion was taken.

A little discussion ensued on the

Brewery question. The report had been circulated that the brewery had been sold for five thousand dollars and the mayor was asked why the town and school district could not secure their full amount of taxes. The mayor informed the council that there was absolutely no truth in such report and that the deal had not as yet gone through.

A report from the various departments was read, showing surplus in light, water and police accounts.

Councillor J. Angus McDonald asked for report on why assessment of Cosmopolitan hotel had been reduced by nearly ten thousand dollars by the Court of Appeal. He was advised that the Town was represented at the Court by Solicitor Putnam and that so far no official report had been received from the Solicitor. Coun. McDonald asked if the town did not intend to appeal further in the matter, and was advised that to appeal possibly a thousand dollars, which would involve the town into an expense of possibly a thousand dollars, which the town could ill afford.

At the evening service at St. John's Anglican Church at Pincher Creek on Sunday last, the Venerable Archdeacon Hayes, of Calgary, delivered a beautiful memorial tablet to the memory of the late Major Wallace Sharpe. Large numbers of veterans took part in the impressive service.

The Art of Spending

Getting the most for your money and conquering the tendency to spend for trifles is possible only through practice and self discipline.

When possible avoid the habit of buying on credit. A good rule is "Pay as you go." Think twice and challenge the necessity of every expenditure.

"Double your Savings; It Can be Done."

Committee Is Chosen To Form Wheat Pool For Saskatchewan

Regina.—By unanimous resolution, a large audience in the Metropolitan Methodist Church agreed upon the appointment of a committee to organize a long term contract wheat marketing pool for Saskatchewan, at the conclusion of an address by Aaron Sapiro, the California co-operative marketing expert.

The committee is to consist of five representatives of the Saskatchewan Grain Growers' Association; five representatives of the Farmers' Union of Canada; five unorganized farmers; one representative by the Provincial Government to be named by Premier Dunning; one banker; one journalist; one representative of the Saskatchewan Co-operative Elevator Company; one representative of the private elevator companies; and two merchants, one in the northern part of the province and one in the southern.

The representatives of various organizations on this committee of 22 are to be named by their organizations, while the others will be named by a committee consisting of Hon. A. M. Mahon, President of the S.G.A.; A. J. McPhail, Chairman of the Dismounts; L. O. Drouillet, of Lakes, Vice-President of the Farmers' Union; and Hon. Chas. M. Hamilton.

The resolution was submitted to the meeting by Premier Chas. M. Dunning, who announced that it had been readied to him for the purpose.

It was moved and seconded from the audience by A. Brown, of Regina, and J. J. Lamb, of Ogema. A show of hands demonstrated that the meeting was largely composed of city people with a sprinkling of farmers.

The text of Mr. Sapiro's address was similar to that which he delivered in Saskatoon, dealing with the principles of co-operative marketing on the long term contract basis and outlining the methods which he contended should be adopted if the farmers are to successfully handle their crop. In his concluding remarks he strongly urged the audience to take the initial steps toward the formation of a pool of this character.

English Labor Leader Will Visit Vancouver

Delegate to Convention of Trades and Labor Congress.

Montreal.—Frank Hodges, youngest of the prominent "labor leaders" in Great Britain, and Secretary of the Miners' Federation of Great Britain, arrives in Montreal on August 26, on his way to Vancouver, where he is fraternal delegate to the annual convention of the Trades and Labor Congress of Canada.

Organized labor of Montreal will take special steps to present Mr. Hodges with their version of the immigration problem, it is said.

Earthquake Near Japan

Victoria.—An earthquake of moderate intensity, probably in the vicinity of Japan, was recorded on the seismograph at the Gondales Observatory, Aug. 8. Commencing at 4 hours, 11 minutes, 45 seconds, a.m., the record lasted two hours, the maximum wave being recorded at 5 hours, 2 minutes. The distance was about 4,600 miles.

Chancellor Cuno Says German People Will Continue Resistance

Berlin.—Passive resistance will be continued with all the strength of the German people, "free from mad acts of violence and terror," and the people in the unoccupied territory will "support actively" those in the occupied region, Chancellor Cuno asserted in addressing the Reichstag when he convened for a short extraordinary session.

When the Chancellor rose to begin his long address he was prevented from speaking for some time by the Communists, who greeted him with epithets such as "traitor," "wanderer," and "the president of the Siamese company board is going to speak." One Communist deputy got very excited, shook his fist at the chancellor and was called to order twice. Herr Cuno was subjected to continual interruption during his speech, which was received somewhat coldly by the house.

W. N. U. 1485

Africans Should Not Be Taken Into Army

Mandates Commission Holds They Are For Home Defense

General—General approval of the mandate given by the League of Nations was accorded by the permanent mandates commission at a public session closing its three weeks hearing on the reports submitted by the mandatory powers.

The commission found that the mandatory powers have fully protected the rights of the native populations. As outlined, the measures taken by the mandatory powers against the abuse of alcohol in the mandatory countries was considered satisfactory, but the commission decided to recommend to the Council of the League an act pertaining to the importation of alcohol into the African territory under British mandate.

The commission held that the spirit, if not the letter, of the mandates would be violated if the natives were recruited for the army, as it was intended they should be utilized only for defence and the maintenance of order in Togo and French Cameroun.

The resolution was submitted to the meeting by Premier Chas. M. Dunning, who announced that it had been readied to him for the purpose.

It was moved and seconded from the audience by A. Brown, of Regina, and J. J. Lamb, of Ogema. A show of hands demonstrated that the meeting was largely composed of city people with a sprinkling of farmers.

The text of Mr. Sapiro's address was similar to that which he delivered in Saskatoon, dealing with the principles of co-operative marketing on the long term contract basis and outlining the methods which he contended should be adopted if the farmers are to successfully handle their crop. In his concluding remarks he strongly urged the audience to take the initial steps toward the formation of a pool of this character.

Canada was officially represented at the general services. Hon. Arthur D. G. Cameron, Secretary of State, came here at the instance of the Canadian Government. He paid his respects to Secretary of State Hughes, who made it plain that his presence here was deeply appreciated by the United States Government.

Sasks Support For League

Toronto.—A formal effort to organize the people of Western Canada to support the League of Nations is to be made by H. St. George Foster, in the course of a lecture tour which he is commencing immediately. The tour will constitute the first appeal on behalf of the League from the public platform of Canada.

Bacteriologist For Manitoba Dead

Winnipeg.—Dr. Gordon Bell, Provincial Bacteriologist and Professor of pathology in the Medical College, died at the General Hospital here. He was born at Penetanguishene, Ont., May 22, 1888. He received his education at Penetanguishene Collegiate Institute, Toronto University and Manitoba Medical College.

Immigration in July

Ottawa, Ont.—The total number of immigrants to enter Canada during the month of July was about sixteen thousand. Immigration from the United States was about normal.

Government May Have A Purchasing Board

Consider Instituting Modified Form of War-Time Commission

Ottawa.—A new system of purchasing by the Government, or, more properly, a revision of the old system, is under consideration by the Government.

During the war a purchasing commission was appointed and its functioned for many, but not for all of the departments. When the former Government sought by legislation to make the commission permanent, opposition within and without its ranks defeated two successive attempts. Meanwhile the commission has existed in name only, but latterly one commissioner, Lieut.-Colonel LaFleche, has been on the job and he alone is provided for in the estimates this year.

What is now proposed is purchasing by each department of its own means, with review by a committee of the cabinet to which Colonel LaFleche would act as secretary. The sale and salvage of Government property is being placed in the hands of Lieut.-Colonel Beer of the commission staff.

Withdraw Trans-Canada After September 30

Trains Leave Vancouver and Montreal On That Date

Regina.—Dates of the withdrawal of the trains of the Trans-Canada Limited and the Mountainair trains at the end of the season, were announced by G. D. Brophy, District Passenger Agent of the C.P.R., here.

Nos. 7, 8, 9, the Trans-Canada Limited, will make their last trip for the season, leaving Montreal, Toronto and Vancouver, September 30. The last Trans-Canada Limited in both directions will pass through Regina, October 2.

The Mountaineer, Nos. 13 and 14, between Chicago and Vancouver, will be discontinued west of Moose Jaw on and after September 15 for the westbound train and September 19 for the eastbound train. Trains will continue to operate on present schedule between Chicago and Moose Jaw, and through equipment will be consolidated at Moose Jaw with trains Nos. 1 and 2, the Imperial.

German Mark Not Used

Merchants Are Now Using Dollar and British Pound

New York.—The downward plunge of the mark since the Ruhr invasion has reached a point where it is no longer used in commercial transactions in Germany, according to travellers arriving in Hoboken on the North German Lloyd liner. Münchener German merchants, they say, were using the dollar and the British pound sterling in both domestic and foreign trade.

Investors in securities paying interest in marks were among the classes hardest hit. Since the depreciation of the mark the returns from such investments have reached a microscopic point. At the same time prices of commodities rise as much as three hundred per cent overnight, said the homecomers.

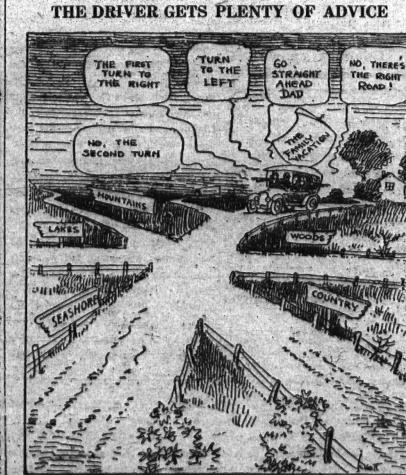

Resources Conference Deferred

Winnipeg.—The conference with the Federal Government on the natural resources dispute has been postponed indefinitely, Premier Bracken announced. The meeting was postponed owing to the inability of western premiers to attend while the wheat pool negotiations were in progress.

Many Harvesters From England

London.—During the first seven days of August, 3,700 farm workers have sailed by Canadian Pacific steamers to Canada to engage in the harvest operations in the western provinces, and about 1,300 more who were booked by the same line have been transferred to other steamship lines. The rush is so great that one company has been unable to handle all.

THE DRIVER GETS PLENTY OF ADVICE

WESTERN EDITORS

Consider Instituting Modified Form of War-Time Commission

Ottawa.—A new system of purchasing by the Government, or, more properly, a revision of the old system, is under consideration by the Government.

During the war a purchasing commission was appointed and its functioned for many, but not for all of the departments. When the former Government sought by legislation to make the commission permanent, opposition within and without its ranks defeated two successive attempts. Meanwhile the commission has existed in name only, but latterly one commissioner, Lieut.-Colonel LaFleche, has been on the job and he alone is provided for in the estimates this year.

What is now proposed is purchasing by each department of its own means, with review by a committee of the cabinet to which Colonel LaFleche would act as secretary. The sale and salvage of Government property is being placed in the hands of Lieut.-Colonel Beer of the commission staff.

Belgium May Submit Reparations Plan To France And Britain

France Is Suspicious

Can See No Reason For Depreciation of Franc

Paris.—The continued drop of the franc in London and New York is attributed in French banking circles to a "political offensive" in London.

France does not now need either dollars or pounds sterling, as tourists are bringing in quite enough to cover trade balances. It was said at the Bank of France: "There is no big treasury operation or banking move in progress that would influence exchange, and it is pointed out that the statement of the Bank of France shows the situation to be quite as favorable as it was a month ago."

The conclusion of the financiers is that the attack on the franc in London is inspired by political considerations.

No Assistance From American Vessels

Proposal to Help Move Canadian Crop Rejected

Winnipeg.—Assistance of United States vessels in the moving of Canadian wheat crops to the ports of the Great Lakes will not be given according to a telegram made public at a meeting of grain men, and members of the Board of Grain Commissioners here.

Canadian port dues showed far less advances than in Australia and South Africa, and compared very favorably with the 58 per cent advance in the United Kingdom since pre-war days.

Receive Million From Estate

Schools and Churches Benefit Under Mrs. McCormick's Will

Chicago.—Schools and churches received more than \$1,000,000 during the \$8,650,000 estate of Mrs. Anna Fowler McCormick, widow of Cyrus H. McCormick, inventor of the reaper, the executors announced in making public a synopsis of Mrs. McCormick's will.

The three children, Cyrus H. McCormick, Anita McCormick Blaine and Harold Fowler McCormick, each

will receive \$2,575,866, sharing equally in the money not given to charity.

Krups Directors Lose Appeal

French Court Disagrees With Content of German Counsel

Paris.—The court of cassation rejected the appeal of Baron von Bohlen, head of the Krupp plant at Essen, and the other directors of the Krupp Company, who had sought injunctions issued by the French court martial at Werdau overruling the contention of the Germans' counsel that the offence was not committed in enemy territory.

Italian Senator Killed

Gorizia, Italy.—Senator Giorgio Bombelli was killed by two revolver shots through the head fired by Vittorio Calecchio, a native of Fiume. As soon as Calecchio started firing Boni attempted to take cover behind a trolley car but slipped and fell. His assailant was upon him instantly and shot him twice through the head before the terrified onlookers could interfere.

Workers Shifted from a 12-hour to an 8-hour day will receive a flat increase of 25 per cent. in their hourly pay.

Many Harvesters From England

London.—During the first seven days of August, 3,700 farm workers have sailed by Canadian Pacific steamers to Canada to engage in the harvest operations in the western provinces, and about 1,300 more who were booked by the same line have been transferred to other steamship lines. The rush is so great that one company has been unable to handle all.

Highway Nearing Completion

Victoria.—The trans-provincial highway, running from Vancouver through the interior of British Columbia to the prairie provinces, will be completed by the end of next year under the present plans of the Public Works Department, Hon. W. H. Sutherland, Minister of Public Works, announced.

Auditor For Alberta

Edmonton.—Confirmation of the appointment of James C. Thompson, of New York City and formerly of Calgary, to the position of provincial auditor for the Alberta Government, is made by Premier Greenfield.

Canada Not Bound By Armament Pact To Assist Europe

Paris.—The temporary mixed commission of the League of Nations considering reduction of armaments adopted the text of the proposed treaty of mutual guarantees, designed to bring about reduction of armaments, which it will submit to the assembly of the League at its meeting in September.

Some of the important features of the project were adopted without an unanimous vote and it consequently will be the subject of continuing negotiations. The text, as it will be submitted, provides for a general treaty to be signed by all the members of the League, whereby they agree to aid members who are victims of aggression or threatened invasion.

This agreement, as far as it implies

Paris.—The Belgian Government has decided to take the initiative and directly approach Great Britain and France if the reparations negotiations among the Allies show no signs of being resumed. The Belgian Foreign Minister, Théophile Delcour, has sent a Brussels dispatch to the Executive.

Premier Théophile Delcour, and Foreign Minister Jaspar, will come to Paris, the correspondent asserts, to propose that the reparations claims from Germany, so far as France and Belgium are concerned, be confined to the material damage suffered by those countries, and furthermore that Great Britain cancel the inter-alleied debts, receiving from Germany, for her part, the amount of money she owes the United States.

On this basis, according to the dispatch, the Belgian ministers will suggest that inter-allied reparations be started to settle the guarantees to be required from Germany, thus coming within the provisions of the Versailles treaty.

National Debt Decreasing

Six Millions Less For July According to Statement

Ottawa.—The net debt of Canada, according to a statement issued by the Department of Finance, fell by a little less than \$6,000,000 during the month of July, although the gross debt rose by something less than \$3,000,000. The difference between the two statements is explained by an increase in the investment of Dominion funds over and above those which are classed as inactive, such as the railways.

The net debt of Canada at the end of July stood at \$2,403,235,609, as compared with \$2,409,237,572 at the end of June. The gross debt at the end of July was \$5,926,211,773, as compared with \$5,925,568,384 at the end of June. The increase in the gross debt is due to a rise in the circulation of Dominion notes.

During the year ending with July there was a drop of about \$47,000,000 in the gross debt, but the net debt during the same period went up by approximately \$11,000,000. The reduction in the gross debt is explained chiefly by a decline in the debt payable to Canada. There was also a decline in the temporary loans during the year, but there were increases in the whole circulation and the miscellaneous banking account of the Government. The increase in the net debt is explained by a decline in Government investments generally, accompanied by an increase in those investments which do not produce a revenue.

Kansas Wheat Crop Light

Second Smallest in Ten Years, According to Statistics

Topeka, Kansas.—The Kansas wheat crop has plummeted to an average yield of nine bushels to the acre and a crop of 73,595,000 bushels, which makes it rank as the second from the lowest in the history of the state. The monthly crop review issued by the federal crop statistician for Kansas, the corn outlook still is bright, and promises to be the third largest crop in 10 years.

Auditor For Alberta

Edmonton.—Confirmation of the appointment of James C. Thompson, of New York City and formerly of Calgary, to the position of provincial auditor for the Alberta Government, is made by Premier Greenfield.

Canada Not Bound By Armament Pact To Assist Europe

Paris.—The temporary mixed commission of the League of Nations considering reduction of armaments adopted the text of the proposed treaty of mutual guarantees, designed to bring about reduction of armaments, which it will submit to the assembly of the League at its meeting in September.

By the terms of the accord, the council of the League may decide to adopt a declaration to be signed by the signatory members for military forces or to prepare a plan for financial co-operation among the members in the defence of, and with the consent of, the state that had been attacked. The council may also appoint a commander-in-chief to take charge of the combined forces contributed by the signatories.

SAFETY FIRST

A lady went into a photographer's to have her picture taken—naturally. While the photographer was adjusting the camera, the lady wrapped a cloth around her skirts.

"You'll have to take that off, madam," said the photographer. "I can't take your picture that way."

"You can't fool me that way, young man," she said. "I know you see me upside down in that camera."

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thur., Aug. 16, 1923

**MISS MACPHAIL, M. P.,
CRITICIZES SCHOOL BOOKS**

TORONTO, Aug. 12.—At the "No More War" demonstration held here last Saturday, Miss Agnes MacPhail, M.P., devoted herself largely during the course of her address to a criticism of the text books used in Canadian schools, which she stated glorified war and thus created a false impression in the minds of the young, at an age when they are most impressionable. "What we desire," she said, "by this movement is to stimulate the minds of people, to influence them to read and come to a fuller appreciation of the relations between countries. There should be no secret treaties, but the fullest light of publicity is the only policy of a newspaper. If objectors do not like the way things are going they should qualify as voters and then raise Cain about it."

**THE PROVINCE OF
A NEWSPAPER**

It would be comical, were it not somewhat pathetic, the way newspaper offices are besieged every day by their friends, urging them to "roast this and that"; to "see to it" that this and that is corrected; to have this and that done in the city or country; to start this and that kind of movement to correct evils of the government. These friends actually appear to believe that it is the newspaper's business to handle all these affairs. But a self-respecting newspaper, though ready and willing to carry all reasonable responsibility, must remind its readers that they—the people—are the authority upon whom rests the responsibility for the present state of affairs, local, provincial and national. A self-respecting newspaper tries to report the news of what actually happens, not what it might wish had happened. The relation of such a newspaper to the general public is not always understood. It is the duty of a newspaper to be in a position to support any good act and to criticize any bad act of policy. This relationship cannot exist where favors are asked and granted. Honesty is the only policy of a newspaper.

Play will commence on Saturday morning, the 1st of September, when the 18 holes medal play (gentlemen), will be started.

There will be a dance for the visitors on the evening of Sept. 1st.

A puncture is a little hole found in auto tires at long distances from phones and garages.

**BLAIRMORE WILL ENTERTAIN
GOLFERS SEPTEMBER FIRST**

Golfers throughout Southern Alberta and Eastern B. C. will participate in large numbers in the Crown Nest Pass Golf Association tournament at Blairmore, Sept. 1, 2 and 3. This is the classic golfing affair of the south and the crack players are anticipating it keenly as it is certain to evolve some close contests. From a social viewpoint it is one of the red letter events of the summer and early fall season. A. J. Kelly is secretary of the association, and is busy with the arrangements for the meet.

While the program of events is not finally settled, it is expected that there will be the following competitions:

18 holes medal play, qualifying round, gentlemen.

18 holes medal play, handicap, gentlemen.

Hole tournament for those who have qualified in medal play, gentlemen.

9 holes medal play, qualifying round, ladies.

Mixed foursome handicap.

Play will commence on Saturday morning, the 1st of September, when the 18 holes medal play (gentlemen), will be started.

There will be a dance for the visitors on the evening of Sept. 1st.

A puncture is a little hole found in auto tires at long distances from phones and garages.

The 1923 crop in Saskatchewan is estimated to average 20 bushels to the acre.

Mr. McPherson, a government construction engineer, is in town today from Edmonton.

Several Drumheller men were recently caught with moonshine on a dark night.

Pussyfoot Johnson has gone to Arabia, probably to stop those joyous Arabian Nights.

The Pincher Creek butter plant is turning out about 5400 pounds of butter each week.

Dr. H. B. Hoar finished his summer vacation last week end and is now settled down to work in his dental parlors.

Prompted by recent drowning fatalities, the town councillors of Drumheller are considering seriously the matter of purchasing a palmetor.

President Harding's estate was valued around \$700,000. He sold his controlling interest in the Mission Star for more than \$500,000.

It would be more difficult to locate stinkweed around Blairmore than to locate roads through the great mass of stinkweed that infests the government road allowances on the prairies and over which it appears the government or no one else has any control.

WHEAT POOL**SIGN-UP WEEK
AUGUST 20 - 25**

Alberta has decided to have a voluntary Wheat Pool. The Government, the U. F. A. farmers outside the U. F. A., the business men of towns and cities, all classes are invited to farm into the Pool. The interest of the Pool—in improving marketing conditions—of helping the farmer)—of increasing the general prosperity of everybody in the Province.

The Provincial Wheat Pool Committee has been named, and has been working out the details of operation, including contract, financing and so forth.

This committee is confident about the outcome, provided that the farmers themselves show now—not that they have the chance to get it—that they actually want a Wheat Pool, and now go in and join.

How can that be shown? In one way only. By signing up with the Pool. By signing the contract, to be held on August 20th.

In this week it is hoped to reach every farmer in Alberta. Unless 50 per cent of the farmers sign the contracts, there will be no Pool.

If you want the Pool, sign the contract. If you don't want the Pool, refuse to sign, and there will be no Pool. There is no half-way. Signing means success. No signing means, go on as you have been going.

Contract forms and all information

are being sent to the U.F.A. Secretary in your district, your U. F. A. Board of Trade, and town officers. Give in your name as a worker. Find out what you have to do. Get your neighbour in. Farm work is required now to get into operation this year. Cover your district thoroughly.

THE PROVINCIAL WHEAT POOL COMMITTEE

H. W. Wood, Chairman.

S. Lunn, Vice-Chairman.

W. J. Jackman, Gen. Secretary.

Representatives of the United Farmers of Alberta—L. L. L. L. Finch Creek; W. J. Jackson, Brown, A. R. Brown, Westlock; C. W. Robinson, Munson; C. C. Wager, Coronation.

Representatives of farmers outside of the U.P.A.—W. L. Carlyle, Calgary, P. Pallesen, Calgary; O. N. Gilbert, Calgary.

Representatives of the Grain Trade—John I. McPheaden, Calgary; E. S. Morley, Calgary.

Representatives of the Boards of Trade—E. L. Richardson, Calgary; Jas. C. Thompson, Edmonton.

Representative of the Press—C. Smith, Calgary.

Representative of the Bankers—J. H. McDowell, Calgary.

Representative of the Provincial Government—Hon. J. E. Browne, Edmonton.

226 Lougheed Bldg., Calgary, Alberta

DECLARATION OF POLICY**OF****The Moderation League of Alberta**

THE MODERATION LEAGUE OF ALBERTA is a permanent organization for the purpose of initiating and supporting legislation that will promote temperance and better the moral, social and economic conditions in the Province of Alberta.

It proposes to support and carry on a movement for the repeal of the present Liquor Act; and substitute therefor sane, reasonable and practical law.

The League recognises as fully as any prohibitionist the suffering caused by intemperance and the abuse of strong liquors, and yields to none in anxiety to remove a blot on our civilization.

It is in regard to the measures to be adopted to end this evil that it differs from the prohibitionist.

It believes that victories are won by perseverance and strategy rather than by violent running amuck, and recognizes that prohibition of any kind can never of itself secure the desired end, and can only bring in its wake respect for law and order, unless the people are behind the legislation and by the people it means nothing less than a majority of the people, but practically an unanimous people.

That prohibition begets crime and weakens respect for all laws, in earlier days, this is no mere expression.

The Moderation League stands firm and decisively against the bar. It includes among its leaders men who in the earliest days of this Province, agitated for the abolition of the bar, or in default of level, would kill it bar.

The League proposes to conduct a clean, honest campaign. It is willing to concede that its opponents (however much of their desire from them) are actuated by the purest motives and a sincere and earnest desire to bring about that condition of things that they consider beneficial to the people. It only asks that the same treatment be accorded it as it might be thought unnecessary for this League. It is willing to concede that there are some individuals who do not set eye to eye with them, and to implore them to ignore such instances of such recklessness in talking, directed against the members of this body who have already from time to time appeared in the public press.

THINGS TO FORGET

If you would increase your happiness and prolong your life, forget your neighbors faults. Forget all the slander you ever heard. Forget the temptations.

Forget the fault-finding, and only remember the good points which make you fond of them. Forget all personal quarrels or stories you may have heard by accident, and which, if repeated, would seem a thousand times worse than they really are.

Blot out, as far as possible, all the disagreeableness of life. Such things will come, but will only grow larger when you remember them.

Obliterate everything disagreeable from yesterday; start out with a clean sheet tomorrow, and write upon it, for sweet memory's sake, only those things which are lovely and lovable.

Donald McDonald, aged 102 years, died at Sydney last week.

Jim McCool has solved the cost of living problem and claims that the longer one stays in bed and sleeps the less money they will spend.

Mr. and Mrs. C. J. Bundy have returned to Cowley from a motor trip over the Banff-Windermere circle route.

The second trial of Abbe Delorme is set for some time in November.

The Call Of The Open Both Impulse And Promise To Settlers From Overseas

(By Noel Inchcape in Yorkshire Observer)

Mr. Lloyd George's description of Canada as "a land growing hard corn and hardy men," conjures up in the mind of people who know the life of its vast, fertile spaces some thrilling impressions of the conditions under which both corn and men are grown.

One does not know at what to marvel most—at the rashness, ignorance and optimism with which some men start undertakings of quite peculiar and complicated difficulty; or the determination with which, once they discover mistakes or see the real nature of the tasks before them, they "hold down" their propositions, until they turn them into success.

Since the war we have heard a little less about the decadence of the British race. Even now, however, there are "superior" people, living in sheltered ease, failing to realize the cost of making and writing about the type of manhood the Empire needs, as though nothing but their combined extortions could really keep the Empire "up to scratch."

I should like to take a whole chapter of those people to Canada just now and put them in touch with the soldier-settler on the prairies and in the bush. There they would get a tonic decidedly stronger than any they themselves could dispense.

They would meet men who seem undaunted by flood, fire or tempest, just as they persist until they subdue the bush, break rough soil into their service, meet loss with redoubled energy, and turn failure to "glorious gain." I like the phrase they have got out there. Field supervisors, who act for the Soldier Settlement Board, say men are "battling through." It is the same in peace as war—and "peace hath her victories no less renowned."

Take this for victory: Two or three years ago in British Columbia there were strips of bush so dense that there was more space enough for a single log cabin or a tent. Nature had run riot. Today, men who had the suck to settle there have cleared holdings ranging in size from three to ten acres, and have not only their cabins, but substantial prospects of real homesteads and of expanding prosperly. They know out there how to solve the housing problem, with their own strong right arms. So far from bemoaning the part they have had to play in answering the challenge of Nature, they are thankful for what they feel is life made spacious.

That is the average way of "battling through." First the clearance and that little rude cabin; then the experimental cultivation; then the slow adaptation of means to ends that look fairly sure, and the forging of links with markets; and finally, the farmhouse worthy of woman's pride and art.

"I have taken the average case first. I find many cases—cases that represent the more amazing things that can be told of the Great West. I have written of men undaunted by fire and flood and tempest. That was not merely a trick of language. I had wonderful facts in mind."

There is a house whose little place was burnt right out by fire that swept the countryside. Slowly had he got the home together—his holdings, furniture, fences round his land—and his field were under tillage. The fire came. Not a stick, not a growing thing was there left to him. I fancy thousands and thousands of men would have been utterly broken in spirit by a misfortune so devastating. But this man wasn't.

When the field supervisor went to see him he was putting out the still smouldering fire on his "holding" and thinking not so very much about the damage the fire had done. He had a great deal about the fact that it had cleared a large area for him. So he began again, and that, land, fertilizer, fire-in-fresh, set him on his feet by producing one of the grandest crop-outputs ever seen in that land of big and startling things. What about that for "battling through"?

And what of this? Near Portage la Prairie is a married man with four children, who bought an unimproved farm of eighty acres. The first winter he cut logs, hauled them three miles, sawed them; and built a house. Then there were three bad years—failure of crops, accidents, everything seeming to go wrong. But this settler was actually optimistic; when 1923 began, broke up more land and sowed it, received an additional loan from the Settlement Board, and got pigs and cows.

His farm is near a river, and at the critical moment in his affairs the river flooded. His house stood two feet deep in the flood tide, and he had to swim all night across the river, and to wade four miles for food. But

if water could swamp his little farm nothing could submerge his spirit, and by fall he was in such a position that his success was shown to be a foregone conclusion.

I like the vision of these settlers in what they call out there: "God's own country." It is a land where men draw from Nature a stimulus and an inspiration that no city man anywhere, and few old Englands, can hope to share—a land where they get into closest contact with the elemental, the external forces of life, where "the call of the open" is both impulse and promise. These conditions there do test the very fiber of men. But most of the settlers are young and greater and greater as they play their part, and are grateful for a scheme which puts opportunity into their hands, which rewards them for effort and enterprise, and which gives a constant encouragement of the counsel "Patience yet awhile."

Making Afghanistan Modern

City Has Added Radio Station to Other Improvements

Citizens of Afghanistan, in their effort to become modern, have established a radio station at Kabul. This follows the opening of the first telephone connection between Afghanistan and India. There is now a telephone line from Kabul to Kan-dahar, and it is possible to travel by automobile between these cities.

Since the abolition of slavery in January of 1921, great strides have been made in education in Afghanistan. There is a boys' school, caring for 150 youngsters under 12 years of age, and a school for women, both at Kabul, and several primary schools have been set up in the provinces. The school attendance has been decreed, though at present scarcely one person in a thousand can read and write. For the first time in the history of the country a press has come into existence, and five periodicals already have been established.

Rockefeller Still Learning

What Might Appear As Stinginess Was Really Thrift

Last year John D. Rockefeller gave away bright new dimes to the children who came to do him honor on his birthday. This year 5 cents was the limit. Which shows that the great man of wealth is still learning, despite his four score and four. The "nickels," which will be held as keepsakes, will do just as well as dimes. And there's 5 cents.

Here is a lesson in thrift, and it comes from the man who has the least necessity to be thrifty. It's the dimes we let go of when nickels will do just as well. How to define "giving" between necessary expenditures that give us a dollar's return for a dollar and the money which just slips out, we know not where, that plays havoc with our bank account.—Milwaukee Journal.

Will Eliminate Postage, Stamp New Marking Device Is Approved By Postmaster-General

An electrically-driven postage meter that will seal and stamp an envelope, marking the requisite postage, all in one operation, has been approved by the Postmaster-General at Ottawa and there are indications that the time is not far distant when this device will entirely do away with stamps. Several of the new meters are already in operation in Ottawa and these are said to be assailing immeasurably the dispatch of mail. With their general use in the household of the great saving of many thousands of dollars Canadian home, it is expected that a will be effected in the post office department in the manufacture and distribution of postage stamps. Each machine is furnished with a permit number and is under direct control of the department.

So There, Smartly!

"The difference between a woman and a glass," said the funny fellow, "is that the glass reflects without speaking, while a woman speaks without reflecting."

"And the difference between you and a glass," said the sharp girl, "is that the glass is polished."—Auckland Weekly News.

A Perfect Right

The lady would insist on entering the church at a fashionable wedding.

Friends of the bride or the bridegroom?" asked the verger.

"Neither," she said with pride.

"In the organ blower's young lady."

Passengers Can Hear Wireless Concerts

Apparatus Will Be Installed in French Express Trains

Arrangements are being made by the Orleans Railway Company for the installation in the near future of wireless apparatus in the Bordeaux-Paris expresses that will enable passengers to listen during their journey to wireless concerts sent from Paris.

Experiments have been made on these trains which leave no doubt as to the practical success of the venture. Four loud speakers have been installed in the dining cars attached to the trains in question and have enabled passengers to listen to wireless concerts and receive the news of the day from the Eiffel Tower after leaving Paris on the way south and the British Isles.

Difficulties (owing to the smallness of space between the train and bridges) of fitting the train with the necessary antenna have been overcome by running three parallel wires along the whole length of the dining car.

Dairy Products—

Imports Into Britain

New Zealand Has Big Lead Over Other Countries

According to official statistics the imports of butter into the United Kingdom from the year were 55,125 long hundredweight compared with 170 hundredweight for the same period last year. The United Kingdom imports of butter from Denmark this year were 65,000 hundredweight, from the United States 10,325 hundredweight, from the Argentine Republic 235,429 hundredweight, from Australia 430, 597 hundredweight, and from New Zealand 749,783 hundredweight.

The imports of cheese from Canada into the United Kingdom for the first five months of this year were 75,198 hundredweight compared with 94,248 hundredweight last year. From the Netherlands, including Denmark, the United Kingdom imports of cheese this year were 32,070 hundredweight, from Austria 36,391 hundredweight, and from New Zealand 35,152 hundredweight.

Serves Vast Empire

Judicial Committee of the British Privy Council Occupies Peculiar Position

The judicial committee of the British Privy Council administers not only English law in Quebec and Mauritius; Roman-Dutch law in South Africa; Hindu law; Mohammedan law; Buddhist law; laws of vast pecuniary and social importance and yet but the laws of families and tribes. One day a judgment is written on the rights of place miners in the Yukon Valley under the law of British Columbia; another deals with the laying out of the town of Calcutta; another maintains the rights of the gurdwara to certain lands and profits.

Large Postcards

Canada is to have larger postcards. Possibly the authorities are anxious to encourage the transmission of something more original than the modern "having a good time" with your love here messages, and to permit the use of the postscript.—Toronto Mail and Empire.

The Desired Effect

"How pretty and careless Madel's hair always looks!" "Yes. It takes her two hours to dress it that way."

Words are all right when backed by bras.

A Nice Pet

"This is a pet chameleon. You attach him to your shoulder with a tiny chain."

"Wear him with a blue gown and he turns blue. Wear him with a red gown and he turns red."

"What if I wear him with a polka dot?"

"Don't do that. Then he goes crazy!"—Philadelphia Bulletin.

Will Attempt To Fly Around World

Portuguese Airmen Intend to Make Start Next Spring

Admiral Cagio Continho and Commander Saccadas Cabral, the two Portuguese airmen who flew to Brazil last year, intend to fly around the world, starting next spring. The voyage is to be divided into three stages: Lisbon to Japan, Japan to Newfoundland, Newfoundland to Lisbon, a different airplane being supplied for each stage. The total sea mileage is estimated at 19,500, and the route is to be from Lisbon via Crete, Aleppo, Dahl, Caucata, Rangoon, Bangkok, Shanghai, Yokohama, Petrovapolsk, Dutch Harbor, Vancouver, Winnipeg, Quebec, Azores.

The number of hours of actual flight is calculated to be 236, but the flight is expected to occupy five months, crossing India in April, the Atlantic on the return journey in July or August.

Commander Cabral considers that the total expense will be just under \$250,000, and of this \$150,000 is already forthcoming, having been promised for aviation by the contractors of the stamps commemorating the Brazil flight, out of their profits. Thus, although originally state money, this implies no new burden on the state.

Should other financial difficulties be overcome, Commander Cabral will proceed to England to order the three airplanes required.

Russia Aims At Largest Air Fleet

Trotzky Hopes to Attain This in Three Years

Russia, not France, will have the world's largest air fleet inside the next three years, according to the Moscow correspondent of the International Press. Leon Trotzky, War and Navy Commissar, at a recent secret meeting of his Supreme Council, ordered the purging of the Red Army of all officers whose recklessness was beginning to fade, the correspondent adds, as these were likely to become bearers of anti-Soviet propaganda. This he declared essential if Russia was to retain mastery of her territories, and when he outlined his air policy, which calls for 10,000 military airplanes, 3,000 of which are to be ready before the end of the year.

Apart from home construction, large orders for planes are being placed with German firms, and negotiations are reported to have been attempted recently with French manufacturers, who, however, are unwilling to assist in Russia's aerial plan until they know more definitely whether a Russo-German alliance is to be perfected against France.

Apple Growing In Manitoba

Experimental Farm Plans to Establish Orchard Next Year

Is the climate of Manitoba suitable for the growing of apples? This question has been a debatable one for many years, but a definite answer will be possible following experiments to be carried out at the Brandon Experimental Farm. W. T. Macoun, of Ottawa, Dominion Horticulturist, has approved a plan to establish a three or four acre apple orchard on the northern portion of the farm. The land will be prepared this spring and the trees set out next spring.

All these fish spawn in fresh water, late in the autumn. They hatch out during the winter and remain in the fresh water lakes and streams until April or May, when they start for the sea. In the fourth year it returns to the fresh water to spawn. It is when returning to the spawning ground that the fish are taken; the numbers that escape the intensive system of nets and reaching the seedbeds bearing fruit may return at the conclusion of the spawning period.

The annual catch of salmon in the Pacific coast is estimated at 100,000,000 salmon per annum, and the price per pound is \$1.50. The price per pound is \$1.50.

A CANADIAN TRIBUTE TO
WARREN G. HARDING

(By Blanche Irbe Bremer)
How strange! How passing strange
this wondrous thing
Which hath encompassed 'neath our
'winked eyes!
Event so present of transcendental
hope
Of brightness 'merging out of recent
gloom.
Of war's alarms our hearts were sick
afraid,
Of subtleties, of plot and counterplot
With news of hatred's deed and fam-
ine's toll,
As though the Ancient World had
lost her soul.

Then came there one with flaming
torch of Love,
With message of Fraternity and
Peace!
He came not as an alien stranger
might,
But he came as a brother, comrade,
friend.
And how divinely tuned—this friend
who came,
By God endowed, made worthy of his
task,
To join two nations' hands in closer
grasp,
That never may release that loving
clasp.

Within that noble soul no dark dis-
trust,
One purpose only—to uphold his
Faith!
It was as though he'd lived for that
great hour,
Upon the twenty-sixth, the seventh
month,
Of nineteen twenty-three: When thus
he came
And set our hearts and souls with
love afame
With words, like winged seeds of
golden worth,
That sprang in precious growth to
wreathe the Earth.

For as he spake the simple Truth
shone clear—
The Truth that Kind begets its kin-
dred-kind;
The Truth that only Truth and Love
are great;
The Truth that turmoil, strife and
war must cease.
When Nations learn to prize the
Dove of Peace!
When God, the King of Love, is on
Earth's throne.
And by a Court of Nations' august
might
All men and Nations shall uphold the
Right!

Warren Harding: This your mon-
ument

That proudly stands within fair Can-
ada,

Ye came to establish bonds of friend-
liness;

Ye came and set a mark for future
deeds!

And coming ye have left on history's
page

The record of your noble work—
"Well Done!"

God gave this work to you—Divinely
blessed,

Then called you Home to your Re-
ward and Rest.

We mourn! And yet, far greater e'n
than grief

Our mournful joy—that you to us did
come!

And thus, to us do sacredly belong!
But little less than to our sister land!

We mourn, with her, that ye from
earth have passed,

But we, with her rejoice That Ye Do
Know

'Th External lasting good that ye hath
wrought

Upon this struggling world of sin and
woe.

And ever more where speaks the
English tongue.

This bond between America and us
Shall, in thy name, a Sacred Cov'nant
stand

And one wherein thy noble heart may
trust

A watch doth keep where lies thy
feet hath trod.

So shall my name within our hearts
be shrined,

Thou Messenger! Who hast returned
—to God!

AMERICAN LAKE SHIPS
WONT CARRY OUR GRAIN

WINNIPEG, Aug. 11.—"American steamship companies have already put into effect their threat not to carry Canadian grain to market as a protest against the new Canadian law which requires them to file their tariffs with the board of grain commissioners at Fort William," states a special dispatch to the Manitoba Free Press from Fort William.

With American boats concentrating on their own grain trade, it is anticipated at the head of the lakes that under the tremendous handicap of moving a record crop with insufficient boats, Canadian grain will be later in reaching overseas buyers and American grain will thus be sold ahead of that grown in the Canadian west, according to the dispatch.

Since July 1, only seven cargoes of Canadian wheat have left the head of the lakes in American bottoms. The last one left Fort William on July 31. The dispatch states: "Canadian bottoms could possibly move the 1922 wheat crop of Canada in a little more than thirteen months if no effort was made to move the oats, barley, rye and flax according to Fort William shipping men."

"Under the new lake freight law, Canadian grain will have to be moved by Canadian carriers. The law requires the posting of rates and other details by all carriers and the big line companies, operating American fleets, have indicated that they will neither file the rates nor make any effort to evade the law. It is said the law cannot be changed except by act of parliament. Parliament is not in session and no regular session will be held before the crop movement is underway."

WILL ENFORCE LAW
OTTAWA, Aug. 9.—Except for the statement that the new regulations respecting lake freight rates would be enforced, Hon. V. A. Hobb, minister of trade and commerce, declined to comment upon what transpired at a conference yesterday between himself and L. H. Boyd, K.C., chairman of the board of grain commissioners.

It is understood that Mr. Boyd came east to consult with Mr. Robt. in regard to a solution of the trouble which has arisen in connection with enforcement of that portion of the act which requires shipping companies to file tariffs.

MOONSHINE EXPLODES

Prohibition has seen many strange kinds of bootleg spirits, but none so violent, perhaps, as "explosive rum," which was responsible for great agitation and a half of 15 minutes' of the process of Traffic Court in New York a few days ago.

Patrolman McDowell was testifying against a ne'er-a-chaufer charged with reckless driving, when a sound like a pistol shot caused faces of spectators to go white and Magic Theatre House to cry to the patrolman:

"What's the trouble with your gun? Are you shot?"

McDowell brought forth a broken bottle, which, he said, contained rum seized in a raid. The bottle exploded while in his trouser pocket, running his suit and destroying the evidence in the case.

The British and French ships that brought liquors into New York under seal or in barrels came into the inevitable collision with the prohibition-enforcement officers. The seals were broken, and a considerable amount of the liquor was seized and taken ashore, but the officers left a liberal quantity as "medical supplies."

The episode has aroused some indignation abroad, but not so much as many persons expected, since foreigners seem to take it for granted that by diplomatic means some modus vivendi will be reached that will permit foreign steamships to carry a moderate supply of liquor.

The comment of the British public men and newspapers on the breaking of the British customs seals was restrained.

The premier assured parliament that the United States had done nothing but had a perfect right to do, and for once Mr. Lloyd George agreed with him.

And when the news speaks the English tongue,
This bond between America and us
Shall, in thy name, a Sacred Cov'nant stand
And one wherein thy noble heart may trust
A watch doth keep where lies thy feet hath trod.
So shall my name within our hearts be shrined,
Thou Messenger! Who hast returned—
to God!

INCREASE IN IMMIGRATION

The following statement has been issued from Ottawa in connection with increases in immigration this year:

An increase of sixty per cent in the number of immigrants entering Canada during the last three months as compared with the corresponding quarter last year, and for the month of June alone an increase over the same month last year of 58 per cent, is announced by the Department of Immigration and Colonization. The increases have occurred in British and in "other countries" while the number coming in from the United States has fallen off somewhat, but who entered the Dominions in the quarter mentioned this year was 40,962, as compared with 25,092 for the corresponding period last year. The influx from Britain rose from 11,696 for the quarter last year to 22,952 for this year, while the figures from "other countries" went up from 4,972 for the corresponding quarter in 1922 to 12,026 this year for the similar period. Immigration from the United States this year for the three months was 6,378 as compared with 8,462 for similar quarter last year.

BLAIRMORE GOLF CLUB

The Men's Foursome Handicap Competition has resulted in a win for E. Whiteside and W. Godard, who beat A. J. Kelly and W. Turner in the final, and so win the prizes presented by the Captain of the Club.

On the 12th instant an Open Tournament was held at the Waterton Lakes course. Representatives were present from Macleod, Pincher Creek, Lethbridge, Blairmore, Saskatoon, etc.

To the number of about thirty and the Blairmore players were successful in annexing all the prizes, A. J. Kelly being first, M. G. Rhynas, second and E. N. Sturrock, Lethbridge and Blairmore, third. In the foursome competition A. J. Kelly and E. N. Sturrock were first.

On the first of September and the following days the Crows' Nest Pass Golf Association will hold its annual tournament at Blairmore, when it is expected that there will be from 50 to 60 players present from Cranbrook, Waldo, Fernie, Coleman, Pincher Creek, Macleod, Lethbridge and Blairmore. There will be competitions for ladies and gentlemen and if the weather is at all favorable a good three days of golf will be had. The club is having some splendid prizes presented for this tournament in addition to the usual prizes of the Association and the Blairmore club will entertain the visitors to a dance on the evening of the First.

The members of the Club are busy getting the course into shape and it is hoped that by the end of next week most of the work will be done. The course is now being cut from end to end, a new first hole is being constructed by the members. Several of the lady members have undertaken to keep the greens in order from now till the Tournament and are already working on the course. If any members who have not yet taken part in the work wish to do so they will please communicate with the Secretary as soon as possible.

'OO WAS 'OWLNG?

"What was that noise?" asked the Englishman, as an owl hooted in a nearby tree.

"That was an owl," was the reply.

"Of course it was an owl, but 'oo was 'owlng?'

FIXING THE GAME

"This paper says that roughly speaking one marriage in three results in divorce."

"Yes, and it's the roughly speaking fact that causes most of the trouble."

NOSING OUT

Teacher to the Class—Does anyone know how iron was discovered?

Pupil—Yes, sir.

Teacher—Well, tell the class your information.

Pupil—Please, sir, they smelt it.

COWLEY HAPPENINGS

Miss Rita Coates has returned to Calgary.

Bert Connolly was in Cowley on Saturday.

Mrs. Altermatt, of Pincher Creek, was a visitor here on Tuesday.

Several local citizens attended the circus at Lethbridge on Tuesday.

James Leigh was a business visitor to the Pass over the week end.

Mrs. H. C. Morrison, accompanied by two of her children, Isobel and Ronald, have gone to B. C. to spend a few days visiting with Mrs. S. McCabe.

H. D. McMillan motored to Calgary on Sunday to spend a few days there.

Mr. and Mrs. E. Cowan were business visitors to Pincher Creek on Tuesday.

Mrs. F. A. Tustian has gone to Innsbruck to spend a few days visiting friends.

The Ladies' Aid will hold their next meeting at the home of Mrs. M. Cleland.

Mrs. E. S. Easterbrook and family spent the week end at Waterton Lakes.

The next meeting of the Women's Institute will be held at the home of Miss Mary Drewry.

Mrs. Edgett and daughter Florence, of Calgary, were guests in town for several days.

Mr. and Mrs. Bundy have returned home from their auto trip over the Banff-Windermere road.

Mr. and Mrs. Cecil Elton and daughters spent a very enjoyable week end at Waterton Lakes.

Miss Ruth Fink, of Tennessee district, spent the week end in town, the guest of Miss Martha Tustian.

M. A. Murphy and Less Werley have returned from their camping trip and report a splendid time.

Mr. and Mrs. Martin Foster and infant son have gone to Guelph, Ontario, where they will reside in future.

Mr. and Mrs. Coghill, of Bellevue, spent the week end in town, the guests of Mr. and Mrs. Robert Little.

Mrs. James Leigh and daughter Venida left on Monday morning's train for the coast, where they will spend several weeks.

Mrs. H. C. Morrison, accompanied by two of her children, Isobel and Ronald, have gone to B. C. to spend a few days visiting with Mrs. S. McCabe.

The Sunday School picnic, which was held at Jessie Snyder's ranch on the Middle Fork river on Wednesday last, was the best of its kind ever held here. The day was ideal and everything went off ideal. Dinner was served under the trees by the river.

After dinner was over, everyone reported to the race ground, where many races were run, which afforded a lot of amusement. Needless to say everybody enjoyed themselves.

A Californian and a New Englander were boasting. "Why," said the Californian, "we grow cabbages so big that an army of soldiers can camp under one." "That's nothing," said the New Englander, "we make copper kettles in New England so big that a thousand men can be riveting one end and be so far apart that they can't hear each other hammer." "Go on," said the Californian, "what would anyone use a kettle of that size for?" "Why to boil your California cabbages in," said the New Englander.

Mr. J. J. Gillespie, representing the Pincher Creek Anglers' Association, recently received 50,000 steelhead trout fry from the Banff fish hatchery. These have been planted in streams tributary to the Old Man River. This is the fourth consecutive season in which the Pincher Association has planted 50,000 trout fry.

In building over the steamship Leviathan, originally the Valierland, American machinists and shipwrights have turned out the fastest merchant ship in the world. The great ship registered 85,000 horse power and travelled at the rate of 23.04 knots for a distance of seventy-five miles. That means more than thirty-two geographical miles an hour, which is half a knot faster than the Cunarder Mauretania, who went nearly as much faster than the Olympic, the fastest White Star boat, has ever succeeded in travelling.

A movement is on foot at Ottawa, sponsored by the Dominion Veterans' Alliance and the Great War Veterans' Association, to secure the removal of the Pension Board and Department of Soldiers' Civil Re-establishment officials, who it is claimed in a monitor petition have been derelict in their duty. This action is the result of general dissatisfaction among the civilian and veteran population of the Dominion, due to the fact that officials found by the Royal Commission on Pensions to have d-prived veterans and dependents of rights previously granted by parliament are still persisting in their opposition to the remedial legislation passed at the last session of parliament. Correct flaws in the pensions act.

The Knights of Columbus will have an organization for boys, which will be called the Order of Columbus Esquires. As much as \$60,000 will be spent training leaders in each metropolitan center to take charge of the work among the boys. The movement is said not to be in competition with the Boy Scouts.

The large hay barn and contents, owned by Dolphus Cyr, at Pincher Creek, was totally destroyed by fire last week. The fire was caused by lightning. An entire threshing outfit, valued at \$50,000, was included in the loss. The total loss amounted to near \$10,000, upon which practically no insurance was carried.

Neptune Holds Court on a Famous Canadian Ship

A REMARKABLE photograph of the ceremonies that took place when the Canadian Pacific steamer "Empress of France" crossed the line on her recent "round-the-world" tour. Neptune accompanied by his royal harber, the official mascot in the ship's service, and initiated those who were crossing the line for the first time. His Majesty's stay on board was short, but the same day he joined the crew in a game of cards with the passengers on that famous 26,000 mile cruise, no less than forty came to the end of the trip as engaged couples. The photograph of Neptune's court was made by Miss Margaret Miller of Waterbury, Conn., who was one of the ship's passengers.

THE ENTERPRISE, BLAIRMORE, ALTA.

Always In Demand

The World Always In Need of Men of Good Moral Character

No matter what age of the world one may refer to or where a person may be, there is always a demand in the open market for certain things and, strange to say, there has never been an age, including the present, when the demand was not greater than the supply. One of the things that are in demand is for men who are not "for sale," men who are honest and sound from the heart to the circumference. There may be men in plenty, but never a surplus of this type. They are never long without a job. Men who will stand for the right, that is, the other side, against whom will rarely be among the "out-of-work." The world is in bad need of men who are not too lazy to work, are prepared to give a real good day's work and are not too proud to be considered poor. This world is calling for more men who will only claim as their own what they have paid for, and are not ashamed to say, "I cannot afford it." How much more confidence would be expressed in our dealings with our fellowmen and our business relations, if men would not lie, shirk or dodge. So many today are ready to eat and wear what they have not earned, or paid for. They try to keep up "appearances" at the expense of honesty. Trying to appear what we are not is something a great many of us are guilty of.

Something that is always in demand is character of the right kind. We seem to always have a demand of working sort. This is not necessarily true, we are getting worse, but even one of a wrong kind is too many. Some men strive all their lives to build up worldly possessions of some kind, or become famous along some particular line. These are well and good, but if in order they may be so there must go along with them the careful construction of another building, namely, character. In everything we create, we put a part of ourselves, unconsciously perhaps, but it will be there in spite of all we may do to prevent it. Our personality is reflected in our work, and we are judged by its standard. Gradually, this standard becomes accepted as representing that which we produce, and our own characters are linked inseparably with it.

We cannot build into our work strength unless we are strong; integrity unless we are honest; sincerity unless we are sincere; and that when we offer this results of our efforts we are striking our characters on the verdict. And as we are judged by our works while we live, so will we be known by what we have given to the world when we are gone. We cannot afford to build otherwise than wisely, nor should we offer less than our best, it matters not what walk of life we may be treading. Yes, the best in us is always in demand, is never discounted, and the one who tries to meet the demand can rest assured he will reap the best results.—Moose Jaw Times.

U.S. Income Tax Law

Only One-Fifth of Amount Paid By the British Citizen

President Harding, in a recent speech, gave some particulars as to the incidence of the income tax in various countries. According to his statement a married citizen of the United States, with two children and an income of \$3,000, paid \$68 tax on that income in 1922. If he had been a citizen of Canada he would have paid \$166. If the German tax rate had been applied to his income, it would have cost him \$1,000. If he had been a Canadian, the French rate would have required him to pay \$96, and if he had been a British citizen, instead of giving up the \$68 which he paid to Uncle Sam, he would have drawn his cheque for \$320.76.

The Prayer of the Tree
Upon a tree in Portugal a traveller read this appeal:

Ye who pass by and would rouse your hand against me, harken ere you harm me.

I am the head of your heart on the cold winter nights.

The friendly shade screening you from the summer sun.

And my fruits are refreshing drafts quenching your thirst as you journey on.

I am the beam that holds your home, the board of your table, the bed you lie on, the timber that builds your boat.

I am the handle of your hoe, your door, the wood of your cradle and coffin.

You pass me by to listen to my prayer; harm me not!—Boston Transcript.

The Vacation

By stopping all the little leaks and having pleasures few, one saves enough in fifty weeks to have a jolly two.—Boston Transcript.

Increase In Export Of Canadian Autos

Australia Was Largest Purchaser In June, Taking 1,348

Important increases in the export of Canadian built automobiles are shown by figures issued by the Dominion Bureau of Statistics. During June last, 4,639 passenger cars were exported with a value of \$2,171,357 as against 2,567, value \$1,228,310 in June, 1922. For the past, the largest purchaser was Australia which took 1,548. New Zealand came next with a purchase of 589. British South Africa took 441, the United Kingdom 405, and India 288.

The remainder went to 42 different countries.

During the year ending June, passenger automobiles were exported to the number of 50,462 compared with 19,345 the year before.

Freight automobiles exported in June last numbered 1,120, value \$33,747 against 170 value \$74,047 in June, 1922. For the 12 months ended June, the total export was 5,715 against 1,671 during the previous 12 months.

The value of exports of automobile parts during June was \$421,552, compared with \$109,877 in June a year ago, while for the year ending June, the total was \$3,128,775 against \$1,525,867 the year before. Exports of bicycles also showed a large increase.

Northern Alberta Tar Sand

An Excellent Paving Material From Natural Product

The recent demonstration at the Edmonton exhibition of paving with Northern Alberta tar sand combined with gravel and ordinary sand proved conclusively that an excellent surface can be obtained with a minimum of trouble with the natural product. The simplicity with which this paving material can be made should open a field for its very extensive use. In cities and towns it can be used for sidewalks and roads, for garage floors, tennis courts, etc. In rural districts the trappers from all parts of the Dominion and the United States. His first engine was a wood-burner.

Joseph Doricot

Never to have had an accident attributed to him during the forty-two years in which he occupied the cab of Canadian Pacific locomotives is the record of Joseph Doricot, Toronto, just retired from active service. He was born in Wolverhampton, England, thirty-five years ago and, at the age of 15, became a fireman as fireman on the Union Station, Toronto. His duties consisting of keeping the fire grates covered with a plentiful supply of wood. Eight years later he joined the Canadian Pacific at Winnipeg, during the construction of the western lines of the company. After service on various divisions he was promoted to the run from Toronto to Smiths Falls when that line was opened in 1884, and he kept to that run until his retirement.

For some years, and until the general cancelling of the privilege, he had his name on the side of his cab, and he thus became known to travellers from all parts of the Dominion and the United States. His first engine was a wood-burner.

Almost Struck By Meteorite

Rare Occasion on Which Spectacle Was Witnessed

The British Museum recently received a very interesting gift in the form of a meteorite which fell not long ago near Saffron Walden, in Essex.

About one o'clock in the afternoon a laborer in a field at Ashdon heard a hissing sound which he took to be the noise of an aeroplane.

He was astonished to see an aeroplane, but a projectile rushing to the earth. It struck the ground about fifteen yards away, throwing up the soil all round like water.

The man was so much alarmed that he hurried away, but a day or two later returned to the spot with an other man and dug out a meteorite, which was found at a depth of two feet.

It weighs about three pounds, and is five inches long and four inches wide, with a thickness of three inches. The stone is composed of various minerals and has in it many small particles of iron.

It is an extremely rare occurrence for anyone to see a meteorite actually fall to earth, only fifteen such instances are recorded in the British Isles.

Women's Likes

Some of the Reasons Why Women Like Men

Why do women like men? Some of us would like to be shown. Lydia Harg says a woman admires a man for his strength. Men can open doors in the dampest weather; they can strap trunks without bursting a blood vessel; they can turn in a moment keys over which women have lost their tempers and lamented their fingers for half an hour; they can look down precipices and not be dizzy. Men never grow nervous and cry; they go up the stairs at a time; they put one hand on a high fence and leap over it without touching—in short, they do everything easily that women do to and cannot.

Many Sleepers

A Yankee soldier while in England was being shown over an old castle beneath whose floors there were many graves.

"A great many people sleep within these walls," said the guide solemnly, as he indicated the inscription-covered floor.

"Is that so?" replied the Yankee.

"Same way over in our country."

Why don't you get a more interesting preacher?"—Everybody's Magazine.

Salmon Trout For Great Lakes

The Department of Marine and Fisheries announces the distribution of 27,561 salmon trout fry from its hatcheries in Ontario in the waters of the Great Lakes. Announcement is also made of the distribution of 910,000 Atlantic salmon eggs in the eyard state and 13,232,000 Atlantic salmon in the more important streams of the Maritime Provinces.

When Tutanak Ainsa retired into his dug-out, he little thought that he would be—London Opinion.

It is asserted that plate glass will make a more durable monument than the hardest granite.

JUST ABOUT THE LAST STRAW

The Empire's Woodyard

Canada Has Fifty Per Cent. of Total Area of Forests in British Empire

(By Robson Black, Manager, The Canadian Forestry Association.)

Of the total area of forests in the British Empire, Canada holds over 50 per cent., India has 14 per cent., and Australia and New Zealand about 3 per cent.

Seventy-five per cent. of the forest area of the Empire belongs to the people and only 25 per cent. to corporate bodies and private individuals. In Canada alone more than .85 per cent. of the forest area is public owned.

The Canadian people gain from their forest possessions the enormous revenue of \$500,000,000 a year, representing the production of all branches of our forest industries.

More than 100,000 men are engaged in Canada converting forest products into wealth in some form or other. Nearly 400,000 other people depend on this "forest army" for their food and shelter.

In the pulp and paper mills are 23,000 men, drawing \$40,000,000 a year in wages. The lumber industry pays 55,000 men \$60,000,000 wages annually. These are but two industries out of a score that are directly dependent on a forest supply.

In the Canadian people cause 4,000 forest fires a year through recklessness.

The burned material represents many times what is utilized by all the industries from coast to coast.

A Mammoth Tree

New Zealand Has Tree of Remarkable Size and Great Age

One of the largest trees in the world—if not the largest—has been discovered in the bush at Waihola, Hockley, New Zealand. It is a large Kauri tree, the vast trunk of which rises to a height of 75 feet before being broken by the first branch, and measures 22 feet in diameter, or approximately one chain in girth.

It is hoped that this remarkable tree will be jealously guarded from destruction and preserved, to show future generations what the lordly Kauri was at its best.

From a remarkable point of view it would be impossible to tell it, much less break it down, for no mill processes saws large enough to tackle it. Its age is estimated at 2,000 years at least, and carefully conserved, it should have another thousand years before it.

It weighs about three pounds, and is five inches long and four inches wide, with a thickness of three inches. The stone is composed of various minerals and has in it many small particles of iron.

It is an extremely rare occurrence for anyone to see a meteorite actually fall to earth, only fifteen such instances are recorded in the British Isles.

Lumbering in Thunder Bay District

During the winter of 1922-23, 263,409 cords of pulpwood, 463,978 ties, 550,043 saw logs, 34,430 pieces of dimension lumber, 305 telegraph poles and 9,000 cords of fuel wood were taken from the forests of the Thunder Bay district, this being the largest cut on record. The estimated value of the cut is about \$4,000,000.

Just As Effective

Fussy Old Gentleman—"You're very bound to be left in charge of a chemist's shop; have you any diploma?"

Assistant—"No, sir, I'm afraid not, but we've got a preparation of our own that's just as good."

Best in Town

Opposite F. M. Thompson
Co. Across the Track.

Blairmore, Alberta

No sir, moonshine is not at all responsible for these exceedingly bright days.

The department of agriculture of the province of Alberta is desirous of knowing just the exact number of stick weeds and gophers and crows in and around the town of Blairmore.

Here is a chance for some tool of a healer to get a job summing them up.

The stone foundation is being laid for the new Lundbreck town hall. The plans and specifications call for a building somewhat smaller than the city hall built in Toronto. The site is ideal and the building will command a position overlooking the Rocky Mountains. Roof gardens will have space provided for, airplane landing.

SHOULD DISCOURAGE GOSSIP

A special meeting of the Blairmore School Board was held last night, called for the purpose of considering recent examination results.

Chairman Dutil and members W.H. Chappell, Mrs. Christophers and D. A. Howe were present.

The chairman announced the purpose of the meeting and briefly outlined the work of the year. He had secured figures from other school districts in the province, from which to draw comparisons.

Results at Bellevue showed a total of eleven writing in the three grades, 10, 11 and 12. One only in grade 10 had passed.

At Hillcrest five had written, three for Grade X, two for Grade XI.

One only had failed, in Grade X. At Coleman 19 pupils were enrolled, seven in Grade X, nine in Grade XI and three in Grade XII.

One had passed in Grade X, two passed and one conditional in Grade XI, and one passed and two conditional in Grade XII.

Blairmore's figures were 24 in Grade X, 14 in Grade XI, 2 in Grade XII, of which five, three and one, respectively, had passed, a total of nine out of 37, or practically twenty-five per cent, while the showing at Bellevue and Coleman did not exceed 17 per cent.

The enrolment of Mr. Conway's room for the past term was 36, which the inspector claimed in his last report was far too congested to ensure desired results. Inspector J. A. Smith in his report of last December, claimed that too much was being expected of Mr. Conway and that two rooms were urgently needed to accommodate the Senior High School. On a motion by Mr. Chappell at that time, the Board did not concur with the inspector's recommendations.

Mr. Conway stated that most students failed in mathematical subjects of geometry and algebra, because both had been combined so that proper attention could not be given either.

A review of the school's total enrollment proves that the school as a whole is more than ordinarily congested, the average per room being upwards of forty pupils, while several teachers had been caring for more than fifty pupils.

Members of the Board referred to reports brought to them respecting the conduct of principal and teachers. Such reports were many and were from parties who had never manifested any real interest in the school by way of visiting the school when in session or attending the regular meetings of the Board. The Board in this connection felt that no attention should be paid to such reports, since the parties did not fit to make their complaints openly in person or in writing to the Board as a body, and that as far as possible within their power the Board should discourage what to them appeared as nothing more than idle gossip. Reporters as a whole had no manifested proper interest in the school and were too apt to spread undue criticism of the teaching staff.

Mr. Chappell had promised certain ratepayers that he would bring the issue to a head and on this occasion moved that the principal be asked for his resignation. Put to a vote, Mr. Chappell and Mrs. Christophers declared for, and Mr. Dutil and Mr. Howe, against the motion. Motion lost.

Miss Queenie Williams was engaged to fill a vacancy on the teaching staff.

The staff for the fall term will be: D. M. J. Conway, principal, Misses E. M. Fulton, M. T. Davis, M. E. Rae, B. Douglas, Fern Palmer, V. J. Keith, J. Galay, F. Gibeau, Q. Williams, C. Marquis and Mr. W. Galay.

During the past year, Mr. Galay has been employed as physical instructor for the junior boys. At the meeting last night, the Board decided to divide that work, Mr. Galay to confine his attention to the boys while Miss Fern Palmer will look after the girls. The fee of \$400 per annum allowed for this work will be divided equally between the two instructors.

F. H. Sheffield, who for the past three years has been supervising principal of the Fernie public schools, has been appointed to the inspectorship of schools with headquarters at Nelson.

Each year Alberta imports hundreds of tons of beans from Japan and other distant countries and it is believed that if the people of this province knew that just as good, if not better beans can be grown in this province, they would prefer to buy the home product.

Fernie's football team defeated Coal Creek on Sunday evening last the tune of two goals to nil.

A team from this district will play baseball at Fernie on Sunday next.

Eamonn DeValera made his promised appearance at a political meeting at Ennis, County Clare, yesterday, and was arrested while addressing an election meeting.

Jimmie Bennie hopes to stage a wrestling bout at Coleman on Labor Day, in connection with the sports between Ernie Arthur, of Lethbridge, and Cyclone Thompson, of Chicago.

Five thousand harvester are coming from England to Canada this fall.

The fare will be \$60 to Winnipeg and from there to their destination the C.P.R. will charge half a cent a mile.

The Alberta coal miners have protested against the C.N.R. buying U.S. coal.

As a result of a cut rate war in the price of gasoline in the States, the price there now is 11c and 15c per gallon. Canadians are still paying the usual 40 to 50 cents a gallon.

Aaron Sapiro has even convinced Premier Greenfield that the wheat pool of Alberta farmers will be a success. The Alberta farmers have the intelligence to run the pool, but all they needed was the necessary push to get it started.

A company of artists are now busy on what promises to be the best comedy picture of the age. The new picture will consist of eight reels and will be entitled "Prohibition." It will depict clearly how confiscated booze is destroyed. One method will be that most common, where the police are drawing the contents of bottles into a long chute made of boards. At the other end of the chute, overhanging the river bank, are located a number of liberal-hearted bootleggers who are busy moving the barrels to trucks immediately they are filled. The police meanwhile are carefully scrutinizing every label and when one appears to be genuine that bottle is safely dropped in a chute leading to the cellar of the garage. The picture will also specialize on featuring the biggest farce of the age—a gate or fence, guarded by heavily-armed officials, through which you dare not pass with intoxicants. It is claimed to be the only crime known to civilization that can be successfully kept back by the use of armaments. An advance agent will be through this district in the course of a few weeks and hopes to book the pictures for every theatre in the Pass.

Mr. Georges Delrus, one of the most important personages of France arrived in Montreal by the S.S. "Minnehaha" to take up residence at St. John's. Que. Georges was twice a child prodigy and spent most of his life with his grand parents in Tournai, a small town on the border line of Belgium and France. The boy, who was born in a modest home, via Antwerp, George made alone but never out of sight of the watchful eyes of the officials and servants of the community.

Major General Lord Lovett, a passenger on the Canadian Pacific, who attended the British Empire Forestry Conference, Ottawa, said in connection with his investigations into Canada's forests that "England has but a small forest area in comparison to Canada, nevertheless, her forests were largely depleted by the ravages of the War, and now we are determined to recover this loss by practical reforestation. We have been working hard the last three years and expect to make a completion of our work in another year."

Yah! Judging by some of the jewelry worn by certain local parties, all is not gold that glitters.

The seventeenth annual and first bi-annual convention of the United Mine Workers of America, District 18, will be held in Calgary for ten days, beginning on October the 15th.

If knockers were worth about sev-

en dollars each, the Crows' Nest Pass could be considered a millionaire.

Only thirty-seven of the 138 miners entombed in a Wyoming mine, have been taken out alive.

Today's westbound passenger train was six hours late—picking up people at Pincher who had been attending yesterday's exhibition.

WORLD HAPPENINGS BRIEFLY TOLD

Lieut-General Sir Edward Hutton, 75, who was general in charge of the Canadian militia 1889-1900, died recently in London.

Richard D. Waugh, of Winnipeg, tendered his resignation as British representative on the Saaro governing commission.

Benjamin Suite, well known Canadian poet-historian, and who retired in 1902 as deputy minister of the civil service, died at Ottawa, Aug. 6.

The Earl and Countess of Stratford, accompanied by the Ladies Elizabeth and Mary Byng, have sailed from Liverpool on the Montcalm to pay a visit to the Governor-General.

The Quebec Government will establish an insurance fund whereby families of officials of the superior courts and other civil departments will be provided for upon the death of the employees.

Contracts have been made by German grain importers for 12,795,000 bushels of rye from Russia for the coming year, according to cable advices to the department of agriculture. Part payment is to be made in goods.

Starting from scratch, L. E. Carter, piloting a Napier Lion, won the aerial handicap derby around London, over a course of 200 miles, finishing in 1 hour 2 minutes and 23 seconds, at an average speed of 192.4 miles an hour.

King Albert of Belgium administered the oath of office to M. Fortonneau, the new minister of national defence, succeeding M. Deveze, who resigned because parliament was unwilling to approve his idea for a stronger defense.

Thus far no national groups have forwarded nominations to the League of Nations for the election to be held in September to fill the vacancy on the court of international justice due to the death of Ray Barberon of Brazil. About twenty-eight candidates have been nominated.

Australia's Fruit Production

The annual fruit production of Australia has increased from about 1,000,000 bushels in 1913 to 4,672,976, the figures for last year.

The fruit finds a ready market in England, where it has already served to lower the price on all classes of fruit.

Only the uninformed endure the agony of corns. Those who apply Holloway's Cora Remover and get relief.

It was stated in the British House of Commons by Prime Minister Baldwin that the cost of the occupation of Constantinople and the adjacent area since the armistice has been £29,115.

Wall paintings which have been hidden under whitewash for 600 years are now being recovered at Paston Church, Norfolk, Eng.

It spoils the effect if a man gets angry during a religious argument.

A New Idea In Sport Wear

A very novel idea is this combination of a black and white checkered worsted coat with a white flannel skirt, knife pleated. To complete it goes a white hat with green and black trimming and sport shoes of black and white.

PALE FACES AND WORN OUT NERVES

Due to Weak, Watery Blood— A Tonics Required

Anemic literally means "poor blood"—comes on so stealthily that it is often well advanced before its presence is recognized. Feelings of faintness, dizziness, shortness of breath, manifestations of the trouble and these are seldom taken seriously. Gradually small tasks become an effort, the heart beats faster, the pulse accelerates violently. The complexion becomes sallow or pale and there is loss of weight. The nerves grow weak and irritable, the body becomes easily sensitive to noise. The appetite is fickle and indigestion often follows. The constipated and cannot find a tonic that will carry the load and strengthen the nerves, and for this purpose there is nothing can equal Dr. Williams' Pink Pills. These contain the most valuable tonics necessary to give strength to the nerves, color to the cheeks, and nourishment to starved organs, and are well liked by the public.

R. R. 2., Thomas, Ont., has proved the value of this treatment. She says: "I was very pale and weak. My blood was poor and I was very tired. I had my appetite lost and ankles were swollen and feet were in a very miserable condition. A friend advised me to try Dr. Williams' Pink Pills. I got the pills, and before they were finished that they were helping me. I continued the pills until I had taken a full dozen. This is what I am now enjoying the best of health, all symptoms having disappeared. I feel confident that what Dr. Williams' Pink Pills did for me will do for others, if given a fair trial."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Tourists Visiting Canada.

Thousands of tourists are now passing through Alberta, visiting the various national parks and other places of interest. The auto camps at Calgary, Edmonton and elsewhere report many visitors. During the Calgary Stampede nineteen auto parties from California alone were registered at the Calgary camp.

Keep Minard's Liniment in the house

Discusses Leaders of Literature

Mr. Adcock's New Book Deal With Prominent Authors

No living critic is more right to discuss the leaders of modern literature than Mr. A. St. John Adcock, now editor in chief of the London Bookman. Mr. Adcock is exercising this right in a very fine book by him entitled "Gods of Modern Greek Street." It is now announced by his London publishers and it will be issued in Canada early next year by the Munro Book Co., Ltd., Toronto.

Some thirty-two of the most prominent authors will be dealt with, each subject illustrated with a studio portrait by Mr. O. E. Hopper. The following will be included:

Jefrey Farnol, W. J. Locke, Sheila Watson, H. G. Wells, Donn Byrne, A. S. M. Hutchinson, etc., etc.

How good does this work promise to be, that the demand for it in the Dominion should be considerable.

Equivalent Notarity.

When President Harding met the people of Cordova, Alaska, he was informed that the town had no grivances to be redressed and had no new theories of government to propound. Some new form of civic award should be created forthwith and Cordova's name and unique condition should be suitably engraved at the top of the scroll.—Victoria Times.

Ask for Minard's and take no other.

HARD PIMPLES DISFIGURED FACE

Very Sore, Itched and Burned, Could Not Sleep, Cuticura Heals.

"My face became affected with large, hard, red pimples that were very sore. They scaled over and itched and burned terribly. My face was awfully disfigured for the time being, and I could not sleep. I used Cuticura Soap and Ointment and sent for a free sample. My face began to feel better after I had purchased more, and when I had used it long enough, one and one half boxes of Ointment and one box of Soap and one box of Ointment were used. Cuticura Soap, Ointment and Talcum are all you need for every-day toilet and nursery purposes."

Appearances would indicate that the average man gets little beauty sleep.

Miss Viola Lee, of Monarch, is visiting here with her grandmother, Mrs. D. R. McKay.

Some of the Cowley district crops will yield from fifty to eighty bushels to the acre this year.

A doctor observes that a generation that lives on wheels should eat more fruit and fresh vegetables than the generations that walked.

Principal Conway asks us to announce that text books' for grades nine, ten, eleven and twelve may be had at the local drug store in a few days.

Mr. and Mrs. R. Hansford and Mr. and Mrs. Bell, of Calgary, who had been camping for a few days at Waterton, came to town on Thursday last and camped on our campsite. Mrs. Hansford is a niece of Mrs. J. M. Carter here. The party left the early part of the week to return to Calgary via Cranbrook, Windermere and Banff.

THREE ROOMERS can be comfortably accommodated. Apply to Mrs. Thibodeau, corner Eighth Avenue and Stuart Street.

For funeral flowers phone 212, Crows' Nest Pass Undertaking Co.

Mr. and Mrs. F. M. Pinkney left last week end on a holiday trip to coast points.

Sgt. Duncan expects to move his family to their quarters in the new government building next week.

Seven trainmen were killed in a head-on collision of two freight trains near Denver, Colorado, Sunday.

Mr. Blahey, provincial architect, was in town on Monday to look over the new court house.

Scientists say that we are what we eat. Nuts must be a commoner diet than we had thought.

The C. P. R. has stated that they will not give a rate of 37 a ton for coal to Ontario.

Richard Randall, who for the past year has been conducting a tannery parlor at Creston, B.C., returned to town on Sunday night last.

The second degree was conferred at the regular meeting of Livingstone Lodge No. 22, Knights of Pythias, on Friday night last.

Fable: Once upon a time a child rode for a while on a train without asking for a drink of water or getting a cinder in its eye.

Hugh Nelson, of the Coleman hockey team, sustained injuries in the mine at Coleman on Thursday last.

And one cruel editor remarks: "words fail the average woman only when she is about to attend her own funeral."

J. D. S. Barrett, of Coleman, was one of the few to hear E. S. Bishop liquor act commissioner, at the Union church here on Sunday morning last.

Sometimes a bachelors live long enough to feel sorry for the man who won the girl with whom he was once in love.

Nanaimo's soccer team landed the Connaught Cup for Western Canada, defeating the C.P.R. Montreal team two games out of three with a total of two goals to one.

Emini Spalla, an Italian heavyweight champion, and Jack Johnson, former heavyweight pugilist of the world, will come to blows at Newark, New Jersey, on August the 30th.

Mr. and Mrs. G. Norman Elwin and sons left here for Toronto on Monday. Mr. and Mrs. Elwin, senior, started on their journey about a week previous.

We have been asked if the government will put in a boozie artist for liquor commissioner after November 5th. While we are not very well posted on the subject, we think it only fair in view of the fact that they have a strict prohibitionist in that office in prohibition times.

A Cole car driven by Joe Lombard collided head on with a Ford opposite the Putman residence on Sunday evening. The impact was so heavy that the smaller car was thrown about fifteen feet and lodged on its "beam ends." No one was hurt. The damaged car was set upon its wheels on Monday morning and towed to the Crows' Nest Pass Motors garage.

The proprietor of the Lee Ling Laundry, better known as Charlie Chaplin, undertook to convey a party of his fellow compatriots to Lethbridge for the big circus. Nearing Cowley, their auto attempted to travel with wheels high in the air. The non-skid tires failed to hold on the thin atmosphere, however, and the car remained over one of the park, known as Jack Dempsey. Jack was extricated with difficulty and when his back was broken, replied:

"No, me no back broke—just bend 'em back." The car was set upon her wheels and was navigated safely back to Blairmore. No more circus, boys!

Mrs. J. Angus McDonald left here on Tuesday on a brief vacation.

Felt and cloth are being made out of spun glass in Italy.

About four out of twenty-six local candidates for Grade Ten passed in the recent examinations.

Miss Wentzell, of the Putman law office, left yesterday to spend a vacation in the Yakima Valley.

A picnic will be held on the Hillcrest golf course on Sunday afternoon next.

Large numbers of Pass folks motored to Cardston on Sunday last to view the temple.

The Sapiro editions of the prairie newspapers are not particularly interesting to people in this coal mining district.

"Did that woman give any reason for attempting suicide?" "Yes, yes, honor." "What was it?" "She said she wanted to kill herself."

The Nolan Lumber Co.'s sawmill at Flagstone, B.C., was totally destroyed by fire on Saturday night. The loss is estimated at \$10,000.

Mrs. S. Knapman and Miss Doris left Monday for Cardston, where they will view the temple and later visit in Lethbridge.

About forty-eight thousand baby trout from Glacier Park have been deposited in the waters of Waterton Lakes.

Mrs. McLeod, Elizabeth and Earle, returned home Saturday after spending a month's holidays with her daughter, Mrs. J. B. Carter at Hardisty, Alberta.

Mr. and Mrs. W. Bird and Mr. Swan returned Tuesday night by motor from Calgary, after having cruised over the new Banff-Windermere road.

The Calgary Board of Trade arranged for a contingent of motorists to visit the Cardston temple on Sunday last. About a hundred took in the trip.

The Pincher Creek annual exhibition and stampede is being held this week and concludes this evening. We understand that the affair has been the most successful ever held there. About \$2500 was awarded in prizes.

The Pincher Creek Echo has entered upon its twenty-fourth year of publication. The Echo today is one of the best weeklies in the province and reflects great credit upon its editor, Mrs. A. H. Derratt.

Jack Richards, who escaped from the custody of the A. P. P. at Macleod, did not gain much by his brief period of freedom and has been sentenced to serve an additional penal period of two years.

The Prince of Wales will leave England the first week in September to visit his ranch near High River. He wants his visit to be very quiet, with no flag-waving or demonstrations whatsoever.

Rev. E. S. Bishop, liquor commissioner for the province of Alberta, addressed a few persons at the Union church on Sunday morning last. Judging by the size of his audience, neither the man nor his subject were popular.

Rev. Thomas Garrett, of Ottawa clergymen, who died on February 23, left an estate of \$40,450. Among the beneficiaries are Leona Grafton, Brooks, Alberta, daughter, \$7,564; and Mary Marker, daughter, Edmonton, \$9,994.

W. F. Stanley, formerly connected with a newspaper at Coleman, but of late years resident at Banff, is renewing old friends in the Pass this week. Mr. Stanley is now provincial organizer for the Elks and hopes to establish a new lodge in either Blairmore or Coleman.
